

MAYCHAM digital membership cards

Dear members,

Greetings from The Malaysian Chamber of Commerce (HK and Macau)!

We are thrilled to announce that as promised MAYCHAM will soon launch digital membership cards - a faster and greener way to deliver membership benefits to you.

As part of our commitment to sustainable practices, MAYCHAM will stop issuing physical membership cards and switch to digital membership cards starting from 1 January 2021. We hope you can support this environmentally-friendly approach by downloading the App "My Glue" on your mobile device. Register an account if you have not done so already and start to enjoy a more convenient and eco-friendly way of receiving your membership benefits. You will also be able to manage your membership profile and find out the most updated MAYCHAM events through the App.

Our growing list of merchant partners providing a wide range of membership benefits to you have been informed of the adoption of the digital membership cards hence please ensure you are able to show your digital membership card when patronising these merchants. For membership benefits, please click [here](#).

Note that merchants will have the rights to refuse offering the membership benefits if you fail to provide a valid digital membership card.

We have provided some illustrations and a [video](#) to help you to understand the steps and process to your greener and safer digital membership card.

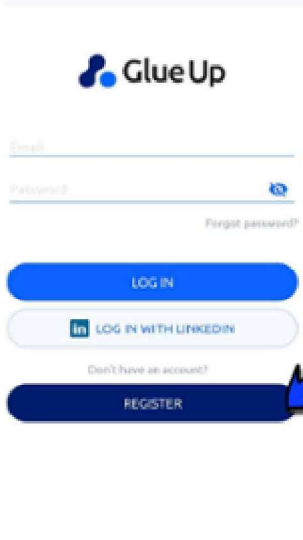

Best regards,
Mr. Song Hoi See
Deputy Chairman & Head of Membership Subcommittee
The Malaysian Chamber of Commerce (HK and Macau)
